Brad,

In addition to the below requested quote, I am needing to get an additional item printed.

We have bag tags, and I've attached the graphic file to this email, that need to be printed. They are designed to be the size of bookmarks, but I am not sure what the weight of the paper needs to be. It would need to be thicker than regular paper but thinner than card stock. These will just be stapled to takeout bags, for reference.

5400 are needed

Subject: Future Quote

Hi Brad,

Ok we are going to be doing a full menu reprint soon, and these will for sure be on the plastic. Can I get a quote for **635 - 11x7 bifold menus?**
